The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Bailey et al and McKiernan et al.

See the toilet environment of Fig. 6 and the duckbill particulars of Fig. 4 in the former.

See the duckbill valve at 17 in the toilet environment 35 together with the description at col. 4, lines 22-28 of the latter.

Claim 1-2 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-2 of copending Application No. 10789,991. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

McFarland and Raftis show other duckbill valves.
